*a selection of floor and external use options are available, please contact us to discuss your requirements

BESPOKE MOSAICS

Just about anything is possible with mosaics. From a simple pattern repeat to a room-sized mural, we can create a masterpiece for you.

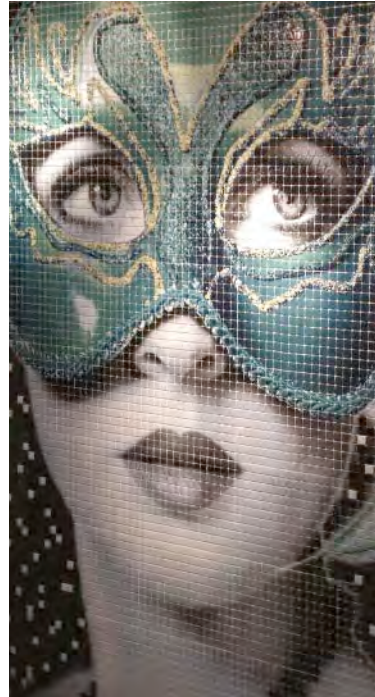

Digital print technology is used to replicate high-resolution photographs or illustrations directly on to clear glass mosaics. Alternatively, designs can be hand crafted in coloured glass and ceramic mosaic pieces to stunning effect. Our bespoke mosaics offer exciting and almost unlimited creative potential to architects, designers and end customers, and can be produced at surprisingly affordable prices. So whether you're personalising a living space or making a dramatic statement in a commercial setting, we can help you realise your vision.
